Aliso Niguel High School ASB Online Voting Instructions

ASB will be debuting online elections and surveys for current Aliso students to participate in as we work towards accomplishing the goals of raising voter turnout, gaining more student input, saving paper/printing costs, and strengthening the integrity of school elections. Students will be able to vote for ASB officers, nominate students for Homecoming, Winter Formal, and Prom courts, and make their voices heard by providing input on school surveys from any computer with internet access. ANHS has contracted with Votenet Solutions, a reputable third-party online voting company who hosts a very secure voting portal specifically geared for the high school environment. Here is the step-by-step process for voting online in ASB elections and surveys:

1. Navigate to the “activities” page of www.alisoniguel.com.
2. Click the “ANHS Elections and Surveys – Online Voting” hyperlink located near the top, left-hand side of the page. Click the link to be redirected to a secure website where you may login to vote.
3. Enter your 7-digit permanent ID number (found above the barcode on your ID card).
4. Enter your 4-digit student number.
5. Click “login.”
6. Click the election or survey you wish to participate in. Not all grade levels are allowed to participate in every election/survey. Grade levels allowed to participate are listed in the parentheses following the election or survey title.
7. Once inside the ballot, follow the instructions until finished. You may login into the same ballot more than once up until you have cast your vote. After you cast your vote, you will not be allowed to vote again. The average election/survey takes only a few minutes (depending on connection speed).
8. Click “signout” when finished with your ballot. You will be redirected back to the school website.

TODAY IS THE DAY TO CREATE OUR TOMORROW.
